SUMMARY

Results-driven Computer Science Engineering professional with a proven track record in developing robust full-stack architectures and AI-driven systems. Proficient in leveraging Java, and the MERN stack to deliver scalable technical solutions. Demonstrated expertise in complex problem-solving and cross-functional collaboration to drive engineering excellence.

SKILLS

- **Languages:** Java, Python, JavaScript, SQL, HTML, CSS
- **Frameworks:** React.js, Node.js, Express.js, Spring Boot
- **Databases:** MySQL, MongoDB
- **AI & ML:** Generative AI, Prompt Engineering
- **Tools:** Git, GitHub, Docker, Postman, Maven, VS Code
- **Cloud:** AWS (Basics), Google Cloud Platform (Basics)
- **Core Concepts:** MERN Stack, REST APIs, OOP, DSA, Agile/Scrum

EXPERIENCE

Java Full Stack | Talent shine | Visakhapatnam | 24 Apr 2026

- Certificate Number: TSI26JFL1050
- Developed robust full-stack applications using Java and Spring Boot, integrating frontend interfaces with efficient backend services.
- Implemented RESTful APIs for seamless data communication and CRUD operations between client and server.
- Utilized MySQL for database management, ensuring data integrity and optimized query performance.
- Collaborated on software development projects using Agile methodologies and version control tools like Git.

PROJECTS

1. Personal Portfolio Website

- Link: [Live Project](#)
- A responsive, interactive personal portfolio website built to showcase my professional profile, including projects, technical skills, internships, certifications, and achievements.
- Designed an intuitive user interface to provide a comprehensive overview of my career journey
- Optimized the site for performance and cross-device compatibility, highlighting my front-end development capabilities and commitment to clean, efficient code.
- Implemented basic encryption to enhance data security within the portfolio features.

2. Placement Preparation Portal (MERN Stack)

- Link: [Live Project](#)
- Technologies: React.js, Node.js, Express.js, MongoDB
- Developed a comprehensive web application for placement preparation using the MERN stack.
- Implemented secure user authentication and authorization using JSON Web Tokens (JWT).
- Designed and integrated interactive modules for aptitude tests, technical MCQs, and coding assessments to facilitate comprehensive campus interview preparation.
- Built a dynamic Admin Dashboard for administrators to efficiently manage assessment content, track user progress, and analyze performance metrics.

EDUCATION

Bachelor of Technology (B.Tech) in Computer Science and Engineering

Bonam Venkata Chalamayya Engineering College (Autonomous) | 2022 – 2026 | CGPA: 8.23/10.0

Relevant Coursework: Data Structures & Algorithms, Database Management Systems, Operating Systems Web Technologies

CERTIFICATIONS

- ServiceNow Certified System Administrator(CSA) - ServiceNow
- NPTEL – Problem Solving Through Programming in C
- Certified Application Developer(CAD) - ServiceNow
- UDEMY – Git Fundementals for Software Developers
- AWS Cloud Practitioner Essentials
- React JS Certification - GFG
